

**Department of Health and Human Services  
National Institutes of Health  
National Institute on Deafness and Other Communication Disorders  
Otolaryngologist-Surgeon Scientist for Tenure-Track Investigator**

The Division of Intramural Research, National Institute on Deafness and Other Communication Disorders (NIDCD), located in Bethesda, MD, is seeking an Otolaryngologist Surgeon Scientist for a Tenure Track position. The Surgeon Scientist is expected to establish an independent translational and clinical research program.

We welcome applications from candidates with clinical and translational laboratory research interests in disorders affecting human communication in one or more of NIDCD's mission areas of hearing, balance, smell, taste, voice, speech and language.

Preference will be given to candidates whose research or approaches complement those of our existing strong programs in genetics, cell biology, immunology and clinical research. The successful candidate will join a dynamic group of scientists and clinicians at the forefront of research on communication disorders. Experience conducting clinical and/or translational research is preferred.

The NIDCD offers an outstanding working environment including well-equipped basic and clinical research laboratories, genomic, audiology, imaging and flow cytometry core facilities, state of the art clinic, testing and inpatient units in the NIH Clinical Center, and numerous opportunities for collaboration both within NIDCD and across the 27 Institutes and Centers that comprise NIH.

The position includes a generous start-up allowance, recently-renovated research and office space, laboratory resources, and positions for personnel and trainees.

**Qualifications:**

Candidates must possess an M.D., or M.D., Ph.D., be board-eligible or board certified in otolaryngology-head and neck surgery, have post-doctoral research experience, and a record of outstanding publications. Leadership and administrative experience is preferred but not required.

Salary is commensurate with education and experience.

**To Apply:**

Please submit a curriculum vitae including bibliography, reprints of 3 recent relevant publications, statement of research interests, an outline or proposed research, and names and addresses of 3 references to: [NIDCDTenureTrackApplication@mail.nih.gov](mailto:NIDCDTenureTrackApplication@mail.nih.gov).

Applications will be reviewed starting June 30, 2019 and accepted until the position is filled. Please include in your CV a description of your mentoring and outreach activities, especially those involving women and persons from racial/ethnic or other groups that are under-represented in biomedical research.

DHHS and NIH are Equal Opportunity Employers and encourage application from women and minorities.
